From Pinto & Associates - *The Bed Bug Handbook: The Complete Guide to Bed Bugs and Their Control*

The *Bed Bug Handbook* is a complete and up-to-date guide to bed bugs and their control. It's 286 pages and extensively illustrated with over 175 photos and 8 pages of color plates. The softcover book provides practical step-by-step guidance for preventing bed bug infestations and for controlling bed bug outbreaks. It includes details on bed bug inspections and methods of control including mechanical (encasements, vacuuming), thermal (dry heat, steam, and cold), insecticide treatments, and fumigation. There are also checklists for preventing and controlling bed bugs in apartments, hotels, furniture rental warehouses, and other sites.

Written primarily for professionals, the *Bed Bug Handbook* is a valuable resource for anyone interested in bed bugs and their control. The authors are entomologists with extensive experience dealing with bed bugs. Rick Cooper is the Technical Director of Cooper Pest Solutions of New Jersey, and one of the pest control industry's leading experts on bed bugs. Larry Pinto and Sandy Kraft are pest control consultants and publishers. They have written dozens of pest control books and hundreds of articles, and have published *Techletter* for pest control technicians since 1985.

To order or for more information, including the Table of Contents, visit www.Techletter.com. The *Bed Bug Handbook* is only \$72, including shipping and handling (U.S. only). Order at Techletter.com, phone us at 301-884-3020, or make your check for \$72 U.S. payable to Pinto & Associates, 29839 Oak Rd, Mechanicsville, MD 20659.
