

Updated Technician Safety Manual!

DEEP DISCOUNTS ON MULTIPLE COPIES

Order one for each office and one for each technician

The second edition of the *Pest Control Technician Safety Manual* is both a reference book and a safety training tool. This 270 page book provides pest control safety training in plain English, and with plenty of lively illustrations to reach workers of all reading levels. Many companies have made the *Safety Manual* the basis for their company safety program. Asbestos, attics, bloodborne pathogens, confined spaces, ladders, pesticides--it's all there. There has never been anything like it...and now it's even better with many new sections and updated information!

Multiple Copy Discounts --

Single copy: \$59, plus \$7 shipping/handling = \$66

2-4 copies (**20% discount**) \$52.80 each (includes S/H)

5-9 copies (**30% discount**) \$46.20 each (includes S/H)
